

Please Support Pennies for Patients!

Passaic Valley students will be taking part in The Leukemia & Lymphoma Society's (LLS) Pennies for Patients program from January 9th- March 3rd, 2017

During this program, students will collect money to support LLS' mission:
Cure leukemia, lymphoma, Hodgkin's disease and myeloma, and improve the quality of life of patients and their families.

Students will learn about service, leadership, philanthropy and how they can make a difference by changing patients' lives.

Passaic Valley has its own online giving page that students, parents and faculty can share with friends and family:<http://events.lls.org/pages/nj/PassaicValleyRegHighSchool-2017>

Thank you in advance for helping LLS to create a world without blood cancers!

For more information on the Pennies for Patients program, please visit <http://www.studentseries.org>

Starting today, Passaic Valley High School will participate in its second Girls' Show charity event, contributing to The Leukemia & Lymphoma Society's (LLS) Pennies for Patients program; a service-learning program that gives students the unique experience of working together to help raise awareness and funds in honor of thousands of children and adults fighting against blood cancers! **We are asking that everyone (students, faculty, parents, alumni, etc.) at Passaic Valley High School join in this effort of raising awareness and collecting funds to benefit the mission of LLS: to find cures for blood cancers and to improve the quality of life for patient and their families.**

WE NEED YOUR HELP!

Every 3 minutes someone is diagnosed with a blood cancer and every 9 minutes someone loses their battle. Thanks to the support of people like you, doctors are getting closer to finding a cure every day! In 1964, the five-year survival rate for children with the most commonly diagnosed form of leukemia was 3%. Today, it's approximately 90%.

Logan, Age 6 Leukemia Survivor

Just before her 3rd birthday, Logan was diagnosed with Acute Lymphoblastic Leukemia (ALL). For 2 ½ years, Logan endured bone marrow aspirations, spinal taps, blood transfusions, aggressive chemotherapy, fevers, hair loss and emotional ups and downs. Logan was too young to understand what she was going through or the enormous pain that she endured, but through it all Logan continued to smile. Thanks to LLS supporters like you, today, Logan is 6 years old and is officially cancer-free!
